About Winland Electronics

Winland Electronics is an electronic manufacturing services (EMS) company, providing product development and manufacturing expertise and innovation for more than 20 years. Winland also markets proprietary products for the security/industrial marketplace. Winland's product development offering includes program management, analog circuit design, digital circuit design, printed circuit board design and embedded software design. Winland differentiates itself from the contract manufacturer competition with its integrated product development and manufacturing services to offer end-to-end product launch capability, including design for manufacturability, design for testability, transition to manufacturing and order fulfillment. Winland's core competency is delivering time-to-market through superior program management, experience, integrated development processes, and cross-functional teams. Winland Electronics is based in Mankato, MN. www.winland.com
