About Winland Electronics

Winland Electronics, Inc. (www.winland.com) markets and sells its line of proprietary critical condition monitoring products primarily through an established network of distributors, dealers, security installers and integrators. In most cases, these products are manufactured to protect against loss of assets due to damage from water, excess humidity, extremes of temperature and loss of power. The Company offers a critical-environment monitoring solution that is an automated, cloud-based platform that provides early alerting, reporting and logging, that ensures regulatory compliance. Winland continues to explore various alternatives to enhance shareholder value that utilize the expertise of management and the Board of Directors. Such alternatives may include establishing new ventures, acquiring existing businesses, and other investment opportunities, including investments in marketable securities.
